MAUA BANK

101 & 103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious Building, in order to suit the increasing flow of business, the Public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities, approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques part or the full amount, at their wish, save when the quantity exceeds three hundred doubloons, for one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England, and France, as also on other places, of which due notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions, within the orbit of banking operations.

The Establishment is always open from 10 a.m. till 3 p.m.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 tuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent., amortization, and 1 per cent. commission.

Series B—Quarterly.

Morgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the act of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

NEW ADVERTISEMENTS

LIFE'S VALUE DOUBLED—With a disordered stomach, physical and mental enjoyment are alike impossible. Every other organ sympathises with the great feeder of the system, and the mind becomes gloomy, irritable, and enfeebled. No change for the better is possibly until the interrupted functions of digestion have been restored and regulated, and Brist-l's Sugar-coated Pills, acting directly upon the stomach, the bowels, and the liver, arrest their morbid action and reinfuse it to them the vigor of which disease has deprived them. Purgation and Invigoration go on simultaneously, the appetite improves, the spirits brighten, and life, which is literally a burden to the dyspeptic, becomes once more enjoyable. The sugar-coating prevents the possibility of contact between the palate and the substance of the pills, and makes them agreeable to taken. cj—ag9

FIRST STEPS OF PROGRESS.

When we call to mind that little more than a year has elapsed since the Reds and Whites in Banda Oriental arrived at a pacification and agreed to lay down their arms we have another proof of the wonderful elasticity of these countries, in the numberless signs of progress observable on all sides, not only in Montevideo but in the departments. We begin to have some faith in the future of a country which seemed condemned to hopeless perdition, and which in the face of difficulties and evil predictions has made considerable headway and disappointed those who looked forward to fresh calamities.

It was said that the pacification of April 1872 would not last to the end of the year, and when Mr. Gomensoro's term of office expired in March renewed assurances were heard that his successor, Mr. Ellauri, would be either disposed of like some of his predecessors or forced to resign in disgust. Yet we see that each succeeding month strengthens the cause of order, and not even the revolution in Entre Rios has communicated itself to the Banda Oriental, although the towns of Paysandu and Salto can see the flames of civil war raging on the opposite bank of the Uruguay.

Probably there are hundreds of Orientals who would this moment welcome any fresh disturbance in their country, who regard the present tranquillity as an unnatural order of things, and who conscientiously believe that the cattle of their adversaries is as much an article of legitimate warfare as the Highlanders regarded it in the last century, or as Robin Hood and his merry men did in the greenwood of Lincoln forest.

But the law-abiding elements in the Republic of Uruguay are stronger than those of disorder, and wherever we turn we see a steady resolution to pull up for lost time and make such progress as will convince friends and foes that the real interests of everybody are consulted by imitating Buenos Ayres, where people are now in affluence thanks to twelve years of domestic peace.

Instead of the money of the London loan being dissipated among political adventurers, as was confidently foretold, it has been religiously devoted to the redemption of the paper-money, the erection of a new Custom-house &c., and the mails arrived per Douro mention a powerful dredge bought by Clark Punchard & Co. for the cleaning of the port of Montevideo. At the same time the Legislature is occupied with Mr. Tuson's plans of a deep-water port at the cemetery, suitable for vessels drawing 17 feet, and as if to shew that the Departments are to share in such improvements a new law is published in yesterday's papers for the canalization of Arroyo Las Vacas, near Carmelo.

The railway to Florida is now finished and will soon work as great a revolution in the inner departments as the Central Argentine has done with our provinces. The extension to Durazno advances so rapidly that early in 1874 it will be given to traffic. The Higueritas line has met a check, but the Government shows the best faith by not only confirming the Waring Brothers concession but also giving them twelve months prolongation for carrying out the work. Mr. Pealer's line to Pando and Maldonado will open up another fine tract of country; while the North-western railway from Salto to Santa Rosa is pushing along under Mr. Gripper's direction to the frontier of Brazil. Nor is it likely that these lines will prove burdensome either to the Government or the shareholders: only a short time since we had occasion to report the traffic returns to Sant Lucia, shewing better mileage than the Great Southern of Buenos Ayres had at the commencement, and receipts calculated to give 7 per cent dividend, although only one-third of the line was completed and working.

The Customs returns at M. Video are quite prodigious, averaging this year about 6½ millions per annum, or more than those of the whole Argentine Republic in 1863. When Clark Punchard's new Customs warehouse is put up it will greatly facilitate the increasing trade of M. Video.

The grand project, at present before the Legislature, for another London Loan, wherewith to redeem the multifarious loans and obligations on which the Government has been so long paying as high as 12 per cent., is calculated to effect a salutary improvement in Oriental finance. Suppose they get six millions sterling in six per cents. at 75 (the present stock in London being quoted at 78) the money will come to cost Montevideo 8 per cent.: this is equivalent to reducing the Public Debt by at least one-fourth, and will consequently put Banda Oriental in a better way of discharging her obligations than heretofore. And as the Funded Debt has always been religiously attended to, there is no reason why English capitalists should fear a repetition of those griefs which come to our mind whenever Spain, Venezuela or Mexico is mentioned.

At any rate, Montevideo is beginning to be better known in connection with railways, docks, canalization schemes and the like than in those unhappy times when people in England used to read in the morning papers that—

"Paysandu has been again bombarded.

"The Colonia garrison escaped on foot to B. Ayres."

And other similar barbarities. Let us hope that President Lowry, as English people call him, will have his hands full of engineers' plans, preserved-beef in tins, etc. etc. until the conclusion of his official term.

St. Patrick's Society.

TWENTIETH ORDINARY MEETING.

On Thursday evening the twentieth ordinary meeting of this society was held before a crowded attendance,

Mr. T. ARMSTRONG in the chair.

Present—The two Vice-Presidents, Secretary and the following directors—

Bollasty, J Murphy, P Ham, E Casey, J Dowling, Dr. D C Kelly, Gamble, Rodgers, Dr. J Kelly, Cowan, Barry, Gahan, Murray, Walker, Pippet, E Murphy, Lowe, and J Brown.

The Secretary read the minutes of the previous meeting, and then read the correspondence received during the week.

First, a letter from England enquiring of the Secretary the residence or address of Mr. Owen Hammel, who came to this country in the year 1861, and when last hear of was employed on Mr. Culligan's estancia.

Mr. Peter Ham informed the meeting that some years ago knew a brother of the party inquired for; he was in the district of San Antonio de Areco.

Case referred to Mr. Director Culligan to report on.

The Secretary next read the following letter from Mr. Fox—

Buenos Ayres, August 4, 1873.

Dear Sir,

In re P. Dermody, deceased.

In reply to your note of 4th instant respecting the estate of the late Mr. Peter Dermody, allow me to state that Mr. Crabtree, the Manager of the Northern Railway, has received a letter from a Miss Dermody, in which she asks for some information respecting the estate of her late brother. The solicited information I intend to remit to Miss Dermody, through Mr. Crabtree, and which I hope will be found satisfactory; if not, or any doubt exist as to the correctness of my statements, the relatives of the deceased must send out a document to some person here legally authorized to solicit from the Court permission to examine the 'autos o incidentes' relative to the estate in question, for without such a requisite the Court will not grant any intervention in this matter; and it would be well to bear in mind that this rule must hold good in all cases analogous to the present. I may, however, mention that Mr. Walker's surmises respecting the estate of Dermody are perfectly correct, and add that the claims against said estate exceed by threefold the amount realized by the sale of the property legally belonging to the deceased.

I remain,
Dear Sir,
Yours respectfully,
J. T. Fox,
Curator to the Estate.
Rev. W. M. Walsh, Secretary,
St Patrick's Society, B. Aires.

The Secretary stated that Mr. Fox had also called on him, and expressed his readiness to help the Society as far as possible in looking after heirs, property &c.

A letter from a German broker, referring to the case of a poor Irish woman named Casey, in his employ; she has a family of helpless little children to support.

The Chairman directed that the woman should apply to the Secretary, and give him fuller particulars.

Mr. Nicholas Lowe's letter was read proposing three new members, parties living on his estancia.

The Secretary stated, that Dr. Browne of the s. s. Donati had applied to him to find out the whereabouts of Mr. James Cullen, who came out in 1864 and supposed to be up near Rosario.

Case referred to Rev. Father Flannery, director of the district.

The next case before the meeting was that of the Drew property. The Secretary read a letter from Mr. Farrell giving full particulars. Mr. Naughten who held a power of attorney from a sister, in Ireland, of the deceased man came forward and made a statement.

Mr. Mulhall stated that the case presented many difficulties and furthermore that perhaps in all such cases, it would be better not be publish any names, as the interference of the Society in such cases was merely to work good and not to offend any one.

The Secretary stated that already the good offices of the Society as arbitrator has been employed in the case brought forward some time ago by Mr. Lowe, and with the greatest success, both parties abiding by the decision, money paid, and both sides contented; he believed in the present case by going the right way to work the same might be effected, and instead of at once going to the lawyer of the Society it would be well to write to the parties interested and ask for information.

The Chairman fully concurred, and the Secretary was directed to write to the parties in question.

A communication from Dr. Gibbings on immigration was then handed in and taken as read.

In the case of the Martin children, Mr. M. Duggan stated that Mr. Michael Murray is the Albacea and he tutor of the children in question.

The meeting considered the children could not be better cared for. Mr. Mulhall at the close of all this business asked leave to introduce to the meeting a very distinguished member of this Society who arrived to-day from Montevideo. Mr John Oldham. (Cheers.) Mr. Oldham is the manager of the Montevidean Telegraph Co. the most successful in the Plate, and he Mr. Oldham has kindly promised to deliver at the next meeting a lecture upon the powers and wonders of electricity. (Great applause.)

Mr. Oldham came forward and addressed the meeting, stating that it will afford him pleasure to give at the next meeting a lecture on Electricity. (Great cheers).

The following gentlemen were then named as a special committee to consider what immigration scheme should be proposed to this society, and if the said committee considered any scheme desirable, to draw up a draft of same to lay before the society—

Dr. D C Kelly,
Dr. Haslam,
Mr. E Murphy,
Mr. Rodgers,
Mr. Pippet,
Mr. Thos. St. George Armstrong.

Mr. John Walker addressed the meeting on the failure of Mr. Dennehy's scheme, and also the failure of the passage money question, the society being as yet unable to come to terms with Messrs. Lamport and Holt for the promised £10 passages. Many parties were constantly calling on him about these passages.

The Chairman requested Mr. Walker whilst addressing the meeting to put down his stick, which he refused to do.

Mr. Walker, on being again called to order by the chair, stated that he resigned.

The Chairman directed it to be entered on the minutes of the meeting that Mr John Walker resigned as director and member of the society, which resignation was accepted by the meeting.

Mr Davis proposed, and Mr Dowling seconded, a vote of confidence in the chair; passed with acclamation.

Mr Cowan moved, and Mr Moore seconded, that none but members be admitted to the meetings of the society, and that the sense of the meeting be taken as to the interpretation of Rule 8, to decide on the admission or non-admission of non-members to the meetings.

It was then put to the vote, and carried by a large majority, that none but members be admitted.

The directors then retired to their room to elect members, and the meeting adjourned.

The following new members were elected:

Mr J C Soto and Mr J Lassini, proposed by Mr Dennehy.

Messrs Jas. G Crawford, Daniel Deacon and John Hatten, proposed by Mr Thos. Kearney.

Mr John Munroe, proposed by Mr M Barry.

THE WAR IN ENTRE RIOS.

OPERATIONS ON THE URUGUAY.

The *Prensa* contains two letters from Concordia and Concepcion, which give the following particulars:

Concordia, August 4th.

The campaign continues to be one of inactivity, as the National troops are waiting till their horses get fat or a new supply come to hand. Although Colonel Borges bustles about, it is not likely we shall move before September.

There is more or less rivalry between the officers of the Line and those of the Entre Rios militia; but it would be hard to find better commanders than the militia Colonels Velasquez, Guarumba, Gonsalez and Enrique.

Little is seen of the rebels, except small bands on the Yerna and Yuquery. The valiant Major Aparicio came on ten of them the other day at the Yuquery, took their boats and saddles, wounding one or two, but the rest swam across, the pass being unfordable.

Some deserters from the rebel division under Carmelo Campos say that the rebels desert in numbers, but are beheaded whenever taken, and that Lopez Jordan's men no longer respect the property of foreigners or any one else, but rob all before them.

One day Carmelo Campos encamped on the estancia of Achilles Pirovans, an Italian, at Lucas, and burned his corrals, killed the sheep and cattle, and took away the mares. The tenant abandoned the place, as the rebels had left him only 180 cows out of 500, and 300 sheep out of 1,500. It seems that during the last war both Pirivans and his son had a narrow escape for their lives, the rebels taking away everything, and leaving them naked. The war is now simply one of plunder, and every outrage committed by Lopez Jordan makes him the more abhorred.

The Concordia garrison is well up in discipline, under such a commander as Colonel Alvarez. Letters from Corrientes say that General Vedia is crossing the border, and that the Correntinos are enthusiastic against Lopez Jordan.

Concepcion, Aug. 6th.

Our scouts reach 8 or 10 leagues inland, and say there is no sign of any rebel forces. We now get meat and firewood without difficulty. The garrison is in excellent spirits, and Mabragaña's corps drills admirably, like the rest. Governor Echague continues to rule, as far as pistol-shot from town. The National College under Dr. Alió goes on well: the examinations have passed off superbly. Dr. Churruarin is named President of the Tribunal of Justice.

THE MERCEDES RACES.

Two days after a smart frost, the sun shone finely on as green a spot perhaps as can be found this day of year in all the province. After sunrise, one of those common views, the mirage, by which the face of nature is inverted, a lake appears on firm land, the hill sinks into a hollow, and far beyond the hills or Lomas, space and objects that at noon are lost to sight, come in view, and are seen as the phrase goes 'patos arriba,' inverted, or topsy-turvy. After taking all this in, by a short ride or drive on the 'road' you come on the course, which should be seen to be appreciated: a level sward all through, save a square or so for the longest distance, when a few short cardos are met, but they form no obstacle.

Soon after noon on the 5th all was ready, and a good gathering of people from the neighborhood and next partidos assembled; Navarro, Capilla, Areco etc. were represented. The day was lovely; a pet day, rather warm for the season, but withal enjoyable. A sprinkling of carriages occupied by the fair sex, among them prairie flowers of the very fairest form, and also some exotics that have lost nothing through being removed from a northern and less favored climate; on the contrary, they seem to develop, and certainly retain their pristine hue in this more genial latitude. They were all welcome.

Of the concourse probably three-fourths were born in the Northern Hemisphere, the remaining fourth being Anglo-Porteño and Porteño 'pur et simple' harmoniously blended. The best of good temper reigned amongst them, and the motto of the promoters—Order, Sport, and Good-fellowship—was fulfilled to the letter: not a single disturbance happened from beginning to end.

The native gentlemen entered fully into the spirit and fair play of the 'carrera Inglesa', and suggested the idea of forming a 'circo' and club to carry out a programme. If horse racing is a received and acknowledged institution or conducive to the breeding of swift horses, and recreation and social ties between men of good will, then assuredly it is well to systematize it, and have orderly periodical meetings, in this our approved style, and gradually supplant the somewhat tricky system at present in vogue; and finally and firmly suppress racing on feast days at the pulperias and other places of resort. Possibly in the course of time what we now begin as sport, for a day, and in our style, may serve as an example for our adopted fellow countrymen, some of whom are fast getting 'blood' introduced into their studs, although some of the native horses are swift and enduring runners.

Messrs. Dillon and Kenny of Navarro kindly acted as judges, and their impartial and unswerving decisions deserve special mention.

The riding was admirable throughout, it being 'who shall' between Blue and White, Red, Green and Scarlet; but it so happened that Green was the winning color in the race of the day; the winner bore and wore green ribbons. All the prizes were won by the Mercedes horses

The following was the order of running:

This was the race of the day; a dead heat between Saibruno and Rosillo, decided by a third heat won cleverly by Saibruno.

At the general request and in deference to those who came a long distance, racing was resumed on Wednesday, which ended by giving general satisfaction, although the day was cold and windy.

Several prizes were run for, and some good matches made which kept the spirit of the sport from flagging in spite of the harsh weather until the wind up at 5 p. m. thus bringing to a close a most successful well ordered meeting, creditable to those who attended, and the stewards of the day.

If there be a repetition of these races it is to be hoped that the example of this and last year will serve as a precedent, to keep up the spirit of the Mercedes Motto.

PARIS LETTER.

(*From our Own Correspondent.*)

July 8th.

If the English wish to measure the success of their reception of the Shah, they can best do so by studying the unconcealed jealousy of the French at their having captivated the King of Persia, and in a manner spoiled him for other national hospitalities. It is the Chinese trait in the French character, which believes itself to be the salt of the earth. The only point on which all writers are agreed is, that the Shah is a man of common sense, capable of discerning on which side his bread is buttered. As to his physical traits, he must be Proteus himself, as he would seem to be fat and lean, tall and short, according to the countries which he has passed through. Indeed, since his arrival here no two journals are agreed as to his description. This is independence. Why does not J. G. Bennett set doubts at rest by having the King of Kings interviewed regardless of expense? One praiseworthy decision has been taken by the Paris press—abstaining from writing sermons about the East coming to the West to seek civilisation, of the descendant of the Median Kings leaving in a sense his seven consecutive walled palace of Ecbatana to visit the Thames and Seine. Since we have made the Emperor of Japan more European than Europeans, it is best to proceed prudently with the work of progress. Then the Shah's subjects cannot be so very far behind the age, since a monarchical newspaper draws attention to the remarkable resemblance between the Radicals of Persia and of France, and the chief Bonapartist journal assures us, when the Shah is at home—Allah be praised!—he has only to nod his head to have opponents decapitated like poppies, and that such is the ruler France stands in need of. May we be a long time defended from Napoleon IV, or his cousin.

The Shah has good fortune to come to Paris at a time when the Republic has existed without republicans for two years, a period during which citizens have been deprived of all royal spectacles. He is a 'premiere.' Very little is known about his reign or his kingdom; but his diamonds are attractive, in which respect he is every inch a king. His name, Nasr-ed-Din, is so different too from the Browns, Jones, and Robinsons of every day life. His relations with the fair sex are curious, he has as many houris as Brigham Young. Paris returns out-and-out Radicals to the Assembly, and then rushes off to cheer an Asiatic king, that is, his costume and dazzling decorations, for Parisians estimate a potentate by his clothes, fine feathers making fine birds. Is it not the diamonds worn by actresses with a salary of 50 francs a week, that much of the success of a drama depends upon? The eye wins as it wanders, dazzles where it dwells. The masses must be fascinated by the eyes, not by the understanding. Louis XVI. was lost from the moment he put on the Phrygian cap, and Louis Philippe wrought out his own downfall, by taking his walks abroad with a Sairy Gamp umbrella, and shaking hands with every John Gilpin he met on the Boulevards. Such did more to compel him to retire from business than all the attacks on his life by infernal machines which embellished his reign. Louis XIV and the two Napoleons understood their rôles. A monarch like the Shah, who stands by his order, promising to resemble the Roman matron who was crushed beneath the weight of her own jewels, imposes on the crowd in a manner that M. Thiers in his chocolate coat and smart silk umbrella, or even President Grant in full dress or undress, could never do. Had the Shah, as was at one time reported he would, made his entry on a diamond caparisoned elephant, he would have converted the very Reds to demand the restoration of some one of the three tyrant-Pretenders.

The *Figaro* claims to be the best informed of all the journals. The day of the Shah's arrival it dedicated an allelujah to him in Persian, which his majesty and suite very much enjoyed, as the Persian was printed upside down. A 'special' from that paper took charge of the King at Cherbourg. He informs us the Shah cannot read French on account of the letters, which ordinarily are a help, that he is a subscriber to ten Paris journals, which are read to him daily, and that he is quite at home on French politics, comprehends all about the fall of Thiers, and the tweedledum and tweedledee of the situation. Perhaps he is the only man living that can boast of such accomplishments. He goes into raptures at the idea that MacMahon-Mirza, is a descendant from Brien Borohme. The greatest annoyance it seems reigns in Germany and England, because the Shah cannot pronounce even 'Yah, or no. At Spa, he showed he knew what's what, as he quickly detected the difference between lightning and a Catherine wheel. Further, the Shah it would seem has given great offence to Russia, Germany, and England, by resolving to "only employ French men to reorganize his realm," not even Baron Reuter will be excepted. He has resolved to adopt for his 'militaires' the red inexpressibles of the French soldiers before even seeing them. Crossing the Channel the King was able to ward off sea sickness by playing the piano. On landing, he first reviewed the reporters, then the boys in blue, and the marines. It was during this moment the special noticed his majesty had not shaved, he on 'perfide Albion,' since two days, and that he spoke French like the man of Sedan. Before embarking on the French yacht at Portsmouth, the members of the Shah's suite, wearing German decorations, the Iron Cross no doubt, removed them. Can any one doubt then, adds the writer "of the love of Persia for France?" While railing up to Paris from Cherbourg, the Shah was in ecstacies with the landscapes, though the same reporter avows the King of Kings enjoyed the sleep of the just nearly throughout the journey.

EDITOR'S TABLE.

Yesterday was a 'nothing particular' kind of day, and calculated to destroy the 'morale' of all the unfortunate 'cronistas' in town—ourself included. No steamers in from Europe with stunning news. 'Nothing in the papers,' or out of them. Bleak weather. Every one's nose red and temper bad. Not even a good 'bola' going. Another few days of the kind, and we suffer an editorial Pavia, singing with Frank the First and Elvino 'tutto e schiolto 'sauve l'honneur!'

Hold! There *was* a rumor in town yesterday morning. It was to the astounding effect that the real Sir Roger Tichborne had turned up in B. Ayres in the person of a well and favorably known member of the Bolsa. This news is of so asphyxiating a character that we don't know what to make of it. If there is any reasonable ground for believing it well founded, then the course of the Camara Sindical is as clear as mud, viz., to secure a commission of doctors and experts, have the party in question hauled up instanter, and examined from top to toe to see what marks he has on him and what sort of a 'fist' he writes. It is clear, from a perusal of the latest English papers, that the 'Claimant' is no more the man wanted than is Lopez Jordan, and if Buenos Ayres can produce the real Simon Pure it will be another feather in its cap in London. This matter must be investigated.

"Distance lends enchantment to the view." The *Economiste Francaise* is just now publishing a series of articles on the Argentine Republic, declaring that its information is taken from "the most authentic sources." The following description of Buenos Ayres does not go very far towards proving this assertion—

"The city of Buenos Ayres alone possesses, in addition to the chief National University, schools of Law, Medicine, Arts and Industry, a military school, several colleges, 45 municipal free schools and a library of 25,000 volumes, without including 26 printing offices, 10 lithographic establishments, and 44 journals, written in all languages. In other respects Buenos Ayres is a beautiful and agreeable city, built by Italian architects in a peculiar style, particularly adapted to the climate and entirely European in its effect. It is very rich and active, with 11 theatres, 8 circuses, 17 banks, over 250 mercantile houses, large hotels, splendid gardens, a museum of antiquities, numerous churches, 4 Protestant places of worship, hospitals, steam manufactories, and several lines of tramway passing through its most frequented thoroughfares."

We perceive by the Montevidean papers that the Executive Government there is about to apply to the Assembly for leave to send special Plenipotentiaries to Brazil and Paraguay to settle a lot of questions open with both those countries. We hope the pair of Diplomatists may turn out Mitres or Rio Brancos, and settle everything as completely as wedlock is supposed to settle and do for rakes, roués and roving blades in general.

The splendid steamer Liebnitz, commanded by the popular Captain Hairby sails to-day for Europe with a large number of passengers and a full cargo. We publish a short special edition for this steamer, for the convenience of our mercantile subscribers.

The well-known steamer Saturno will henceforward only make one trip from the Mount to this city weekly. She will leave the sister city every Saturday, her sailings on Thursday being discontinued. This argues a 'let down' in the river trade.

Full particulars of the catastrophe at Colonia are published in the Montevidean papers. At 10 o'clock on the night of the 1st a tube in the illuminating machinery burst with a bang, the burning kerosene flowing over the wooden flooring. Jose Olondo, the keeper, managed to put out the flames with a sack saturated with water, but in doing so his clothes caught fire, and he rushed on the platform uttering piteous cries for help. Meanwhile the oil in the other tubes took fire and the whole place was soon in a blaze. The Gefe, police, members of the Junta and half the town rushed to the scene, the first named and Sr. Mendez trying to get on the tower to save the keeper, but the flames drove them back. A rope was then put up to him on a long stick, but he was so burned that he could not even tie it to the iron railings much less descend by it. At this moment a young Italian named Ambrosio Oyolo (all honour to him!) went hand over hand up the rope, tied it well round the keeper, lowered him, and then came down again by the rope amidst the frantic cheers of the bystanders. The members of the Junta gave the brave fellow 200 pats. on the spot, and he is further to have a gold medal. His bravery was in vain, as the poor keeper died next day. Oyolo merits the Royal Humane Society's notice. The Victoria Cross or Legion of Honour was never more gallantly won.

The members of the Caridad committee, Mdmes. Avellaneda, Gomez, Cambaceres, Malta, Lamas, Dayreaux, Villatte, Pesloñan, and Dikelman have obtained from Mr. Pestalardo a performance in benefit of the Poor of B. Ayres, to take place on the 12th inst. at the Opera House.

We publish in another column a full account of the races at Mercedes on the 5th for which we are indebted to an influential subscriber in that quarter.

Two small steamers will shortly run between Montevideo and the Cerro. Half hour trips will be made. The Radical and Catalan are the names of the steamers. This enterprise is a decided move in the right direction and we hope it will pay.

The Italian Consul has thanked the Port Cap ain at Montevideo officially for saving the Elena, and the latter has promised to surrender the vessel to her captain on his giving security for salvage casts.

Letters from Entre Rios give no very flattering picture of the progress of the war. Horses are wanted, and a decided offensive movement by the Nat. troops is not expected before the beginning of September. There is said to be jealousy between the National and Provincial officers, the Line men thinking no small beer of themselves and that the Militia are small potatoes. All sorts of atrocities continue to be attributed to the rebels, indiscriminate throat cutting being the worst of them. Sacking and burning estancias also goes on merrily.

In the midst of the fuss about the Shah in Persia we have the ominous announcement that precautions are being taken against the Cholera. What a terrific row there would be if the Shah caught it and shuffled off to rejoin the Prophet and his poor old mother.

We find the following respecting Juvenile Bewilderments in the 'Four Ages'—Blackwood:—"It is only by chance and some *naive* revelation that we learn anything of the puzzles and comical bewilderments the mind passes through in the way from partial knowledge to a clear understanding, and how it slowly disentangles them for itself—as when the little girl gravely remarked to her mother on the birth of a litter of kittens, 'Mamma, I was not aware ours was a married cat.'"

We call the attention of our Protestaut readers to the fact that there will be no service either at Flores or Lomas de Zamora to-morrow, on account of the Rev. Mr. Lett's ordination, all being anxious to attend the mother church on the solemn occasion. The Revd. Mr. Hoskin, Chaplain at Montevikeo, has come up in order to be present, and is the guest of the Revd. Dr. Smith. The Revd. Mr. Coombe of Rosario is also expected. We understand that the Revd. Mr, Hoskin will preach to-morrow evening at St. John's Church. The ceremony of to-morrow will be a most solemn and imposing sight, and one not witnessed in Buenos Ayres for some time.

Let land speculators not forget Mr. Ebbeke's thundering land auction at Ensenada to-morrow. Train starts at 10½ a.m. sharp as a needle. A fortune may be secured for a good song, or a few thousand paper dollars invested in a lot at Ensenada to-morrow.

We call the attention of our readers especially physicians and those having infant children, to the advertisement in another column about the new substitute for mothers milk which is much recompended and so largely used in Europe and other countries, that the inventor has already been obliged to build a second factory, to be in position to supply the enormous demand. This composition has already been tried in this country where it has given the same satisfactory results as every where else, and we think of doing a favor to all persons who have small children, in making this preparation known. Our friend Jones has it, and also Sr. Rodolfo Wolff, so go and try it.

The *Siglo* of Montevideo tells a good story of a swindle down there. A watch was being raffled for in a public establishment near the Custom House, an Englishman having made the highest throw, 41, when a seedy looking cove entered, seized the dice, and holding the box aloft said, 'Gentlemen, I am certain to win, but if the thrower of 41 gives me a doubloon I'll abstain from throwing." "See you d—cap'tated first," roared the Britisher. The unknown threw 18, again asked a doubloon "No!" threw 17, and saying he was certain of it took up the watch in its case, and put it in his pocket. He threw again, and was greeted with an awful yell from all present. He had only thrown *four*. Immediately replacing the case on the table he retired. The winner opened the case and a scream of agony burst from his lips, and an awful shout from the bystanders. The case was still there, but the 'ticker' was gone.

"A petrified negro has been found in an undertaker's garret at Roanoke, Miss. It is thought that he undertook the study of law, and became absorbed in Blackstone."

The *Republica* says Buenos Ayres is preparing a magnificent reception for that most dreaded of Shah-in-Shahs, the Yellow Fever, in the coming summer. Livery stables in the heart of the city; new 'conventillos' right, left and centre, and every kind of sanitary negligence. A cheerful look-out this!

Some advices from the States per Douro state that cholera is disappearing from Nashville and Cincinnati.

The new Spanish Minister to Banda Oriental, Sr Millado, has arrived at M. Video.

The row in the law courts at Cordoba has ended in their being closed till after the election for Governor of the Province. Several tons of safes and bushels of new notes have arrived for the new Provincial Bank up there. The Directors have voted themselves 100 pats. each monthly, not an extravagant 'sueldo,' but we presume the statutes give them 'power to increase,' and that they will avail themselves of it on the first opportunity. They're fools if they don't. Working for nothing is quite obsolete.

We are extremely sorry to hear that President Sarmiento has hurt his foot, and is confined to his house. We hope the distinguished invalid will soon recover.

Any reader who is not thoroughly sick of the Shah can read the following. We have more, about his diamonds, for the ladies, to-morrow:—"On the night that the Shah dined with the Prince of Wales, his Majesty showed some unwillingness to go to the Duke of Sutherland's afterwards. The Prince of Wales, in order to persuade him to go, remarked—'The Duke's house is far grander than mine.' The Shah turned round and said—'A subject with a grander house than yours! Why do you not cut off his head?' There are after all advantages in being an Englishman; one's head, for example, is less exposed to disestablishment than that of a Persian."

ON 'CHANGE.

August 8th 1873

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	79½
Cedulas	86

There is no mistaking the attitude of the market, the money crisis has returned, and money is as dear to-day as during the height of the crisis which we had all supposed was over. Advances on cedulas done at 15 and 18 per cent, and with difficulty; on bonds at 1½, and first class mercantile paper at 18. Such is the true state of the money market. It was said on 'Change that the bank directors are determined to domineer the crisis, but how far they have the ability is the question. Exchange rules everything, the rate to-day for commercial paper is 48½, this means 48¾ and 49 for bank, and gold as a matter of course must go forward; were money somewhat easier, exchange would be down to 48: but spite of the tightness of money there are takers on all sides, and one of our private banks had passed a large amount to-day at 48¾ before 12 o'clock. The bank discounted freely to-day, but up to the closing hour it was not known the exact amount; however the brokers seemed contented. The only hope for the market lies in the Finance Minister at once exchanging the Nat. Bonds, and thus enabling the Bank to send its bonds to Europe and the merchants to remit. It is much wondered at that Sr. Dominguez, who so much studies the interest of the market, cannot see the immense help the exchanging of these bonds would afford, as Exchange would at once run up to 51 pence.

The sales to day were—

In the liquidation everything ruled most flat, and no sales.

Nothing whatever done in Bonds,

The great news of the day was the jerked beef news. Owing to shippers having sent everything to Brazil and none to Cuba, prices have run up so in Havannah that the account sales of the last cargo sold shows a profit clear of 20,000 pats. Prices are fully 100 per cent over prices paid here; as a matter of course there was sunshine to-day amongst the beef men, many of whom have several cargoes now in Havannah, and stand to make a fortune in the business.

Mr. Altgeldt was welcomed on 'Chaug to-day, on his return from Montevideo, Mr. A. now takes charge as manager of the German bank, and to-day received the post of Mr. Moll, who leaves in the Douro, much to the regret of the whole foreign commercial community of Buenos Ayres, by whom he was so deservedly esteemed.

Mr. Silveyra, the aladerista, exhibited on the Bolsa to-day samples of his refined agua de cola, as clear as water, also the utilized blood manure, and refined grease: Government has named a committee and on 26th inst Mr. Silveyra begins under his new process.

The Municipality calls for sealed tenders for the burning of the vasura.

The arrivals in Montevideo to day and yesterday were heavy:—

We have received the following circular from the Montevidean and River Plate Telegraph Co., which, as the cable is expected to be ready this month from Lisbon to Madeira, is important. The following are the charges for messages of 20 words:—

To London	£2	4	2
Paris	2	4	6
Germany	2	10	0
Great Britain	2	5	0
Belgium	2	5	10
Spain	1	16	8

Messages can be sent by any steamer touching at Madeira, and now, owing to the cable, it is probable that most of the steamers will call there. The official circular can be seen at this office.

The sale this morning of 50,000 Buschental bonds at 89 was effected on 'Change. This sale, so soon after the payment of the coupon, shows well for the stock. The amortization by lot took place to-day. This is the first transaction in this stock for the last nine months.

There was a good deal said to-day about some forced loans which Mr. Lopez Jordan has levied on the Estancieros of Entre Rios. The following are given as levied:—

Sr. M'Dougall, 3,000 pats.
Sr. Rawson, 3 000 do.
Sr. Benitez, 25,000 do.
Sr. Duportal, 20,000 do.

Respecting the Great Western Telegraph Co. there is some enquiry to know the value of the shares, as it is with this company the Platino-Brazileiro has made arrangements. The Western shares are for £20, of which £13 paid, and are quoted on the stock list as nominal.

Mr. Leiste, the Dutch Consul, has petitioned Congress for a concession respecting the fisheries on the Patagonian coast, with a view to extract oil. Messrs. Burk and Co. have applied to Congress to purchase 100 square leagues of land in the Gran Chaco for colonization purposes. Congress is further occupied with a project to pay off the military debt of 1826; there seems to be a hitch in the business.

The late papers from London bring some items of financial news that may interest this market.

Mr Herepath, speaking of the Buenos Ayres Great Southern Railway, says—

"The board have decided to issue the balance of the six per cent debenture stock recently authorised for the comp etion of the Dolores capital. The stock will be issued at par, in sums not less than £100, and will bear interest from 1st August 1873, on which date the amount al otted must be paid in full to the bankers of the company. The amount available for issue is £67,200. The stock is offered in the first instance to the existing stock and debenture holders of the company, and we cannot but think that they will do wisely to take it up."

And in a later issue he says—

"We understand that the applications for the six per cent debentures have been more than 3 times the amount offered, and all from the existing stock and debenture holders."

"Buenos Ayres Great Southern Traffic.

"The business of this important line and valuable property continues to enlarge. In the last two weeks the increase is £712 and 900, resulting in a take of nearly the same per mile as was had in the corresponding period, notwithstanding that the line is now 146 miles long against 107 miles then; the new miles have cost a vast deal less per mile than the old line.

"Central Uruguay Railway Traffic.

"The return for the month of April, just to hand, shows a very large increase in the traffic. The 40 miles now open have produced £6,776 in April 1873, against £3,036 in April 1872, when 26½ miles were open. The increased traffic in the month is £3,740, while the increased mileage is only 13½ miles.

"The 40 miles have produced in April (taking four weeks to the month) upwards of £40 per mile per week, which is quite a large traffic, and larger even than the prosperous Buenos Ayres Great Southern takes. It is, therefore, pretty evident that the Central Uruguay Railway will be highly successful.

"The traffic returns of the Argentine Tramways Company, Limited, received by mail on Wednesday from Buenos Ayres, show that from 1st January to the 28th May, 1873, 1,075,277 passengers had been carried over the lines, producing a total revenue of £20,380 6s 7d.

"The traffic return of the Grand Trunk Railway of Canada, for the week ended June 28, shows an increase of £2,4 0 over last year.

"The gross traffic receipts of the Central Argentino Railway, for the four weeks ending the 25th May of the current year, on the 246 miles from Rosario to Cordoba amounted to £14,461. For the corresponding period of 1872 the receipts were £12,014. The total receipts from the 1st January to same date were £62,190, as against £65,108 in the previous year."

The Money Market Review, speaking of Paraguayan stocks, says—

"The great fall in the price of Paraguayan bonds has again brought vividly to the minds of the holders of this class of property the peri s attending it when the mere promises of a Government have been the sole foundation on which to place faith. The prevailing distrust of the loans of the smaller Republics of South America may, however, become very undu y exaggerated if investors do not exercise some discrimination as to the exact position of each security. Thus, Bolivian bonds show a serious decline, owing to the dispute between the railway contractors and the railway company. From the sad experience of railway works in Honduras it was to be expected that the bondholders would be alarmed at any mention of the failure of a similar enterprise to connect Bolivia with the Atlantic seaboard. In the one case, however, but little progress has been made and all the money expended, whereas the position of the Bolivian loan is, that the construction of a railway has been commenced, and that £44 per bond are still held by the trustees for the bondholders, earning an interest, being well invested in the United States loan."

Respecting the Maua cable the following is the latest:—

"The directors of Hooper's Telegraph Works, (limited) have received a telegram from Madeira via Lisbon advising them that their steam ship Hooper, having on board the submarine cable to be laid between Pernambuco and Para, arrived at Madeira on the 30th June.

"Great fall in the price of iron.—At Wolverhampton, on Tue-day, several of the large firms in the iron trade reduced the prices of finished iron from 20s. to 50s. per ton—the drop being mostly 40s."

THE ONLY GOOD SAUCE

CAUTION AGAINST FRAUD.

The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the Public is hereby informed that the only way to secure the genuine is to

Ask for
LEA and PERRINS' SAUCE,
And to see that their names are upon the "Wrapper, Labels, Stopper and Bottle."

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against Manufacturers and Vendors of such, or any other imitations by which their right may be infringed.

BEAUTIFUL HAIR

Can only be obtained by the use of Rowland's Macassar Oil. It prevents the Hair falling off or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft, pliable, and glossy. Price 3s. 6d., 7s., 10s. 6d. equal to four small, and 21s. per bottle.

IMPORTANT CAUTION.

Ask for Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each Bottle has a "Glass Stopper" in place of the Cork, as formerly. All with the 'Cork' are spurious imitations. This notice is deemed necessary, as the Proprietors have received intimation that a large quantity of Counterfeit, of the most pernicious quality, has lately been sent from France and Germany to India, South America, and the Colonies, under their names.

A BEAUTIFUL COMPLEXION

Is obtained by the use of Rowland's Kalydor, which allays all irritation and tenderness of the skin, removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the complexion and skin. During the heat and dust of Summer especially, and in cases of Sunburn and Stings of Insects, it is of the utmost use. Price 4s 6d and 8s. 6d. per bottle. DYSENTERY, CHOLERA, FEVER AND COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE hat the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE
REMEDIA, USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Rheumatism, Neuralgia, Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to he College of Physicians and J. T. Davenport hat he had received information to the effect that he only remedy of any service in Cholera wa Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most vauable remedy in Neuralgia, Asthma and Dysentry. To it I fairly owe my restoration to health after 18 month's severe suffering, and whon other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [Dec. 1865] that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would no thus be singularly popular did it not supply a want and fill a place."

Extract from the General Board of Health London, as to its efficacy in Cholera.—"So strong r are we convinced of the immense value of his remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journa* Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that is s always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bott.

THE MOST
Important Auction
OF THE YEAR,
BY
Benjamin Nazar & Co.

No. 154 CALLE VICTORIA.

27th & 28th August, 1873.

130 Magnificent Improved Rambouillet Rams, especially bred and modified, by selection in Breeding, to suit the country, by Wilfrid Latham, of the Cabaña de los Alamos.

These Rams, so well known to Breeders, are yearly rising in their estimation, by reason of their especial qualities of snitableness to the requirements of Flockmasters, and to the conditions of soil, climate, and pasture of the country.

A large proportion of these Rams surpass in all those qualities which are desiderata for the River Plate Breeders, the best Rams of the Cabaña Imperial of Rambouillet, as may be judged by a comparison with the best imported either this year or last.

With admirable fattening form, trueness of shape and unequalled hardiness, most of them combine a length and fulness of staple, of fine, undulating, coming character of wool, not to be approached by any other Merino Sheep here or in Europe. Others again are somewhat finer in staple, of singular brightness and strength, and particularly close.

These different degrees in the length and fulness of the staple in the different sheep have been specially produced, under select breeding, to harmonise with the different qualities of soil and herbage in various districts of the cams.

The importance of this breed, with its exceptional qualities, is easily comprehended, through a reference to European markets, where the long, full, and bright stapled merino wools command the ready sale at the highest prices, while the short weak wools are a comparative drug.

The Rams offered for sale are 15 to 16 months old, with wool corresponding to that age. Also there will be included in the lot a few select two year old Rams, with ten months wool on.

The whole will be on view at the Auction Mart of Messrs. B. Nazar and Co., 154 Calle Victoria, for three or four days previous to the Auction. cj—230 1m jy24
